## MILK PLANT OPENING HERE SATURDAY

Attention of our readers is directed to the quarter of a page advertisement elsewhere in this paper, announcing the opening of the Collin County Milk Products Company in this city, Saturday, March 24.

Free ice cream for all visitors will be served from 2:00 until 4:00 o'clock in the afternoon. You and your family are cordially invited to attend. Tell your neighbors about this important event to farmers and farm dairymen in and around McKinney and throughout Collin county.

This modern milk plant is located in one of the Dr. Burton brick buildings on East Virginia street. The principal owner is Ben E. Cabell of Cabell's Incorporated of Dallas. This important enterprise has a paid-up capital stock of $10,000.

The local manager is Alton (Buzz) Moseley of McKinney, one of our most worthy and energetic young business men.

The plant operator who will have charge of the milk department is W. T. (Willie) Dungan, who received his training at Texas A. & M. College, at the North Texas State Teachers College and also in the Texas Extension service and in teaching. Both of these young men are natives of Collin county and graduates of the McKinney High school, who have the confidence and esteem of their many acquaintances, both in the city and throughout the county. These papers congratulate the owners on securing the services of such efficient, dependable and accommodating young business men as Messrs. Moseley and Dungan.

**Affords Needed Market.**

Mr. Cabell, head of the owning corporation of Dallas and McKinney, stated that the Collin County Milk Products Co. will be in the market the year around for whole milk, bought directly from Collin county farmers and dairymen, when delivered at the plant here in McKinney. Emphasis is placed on the statement that this will be an all-year-around market. Short truck routes are being organized and will be extended for the accommodation of patrons. It is hoped to extend the business in every direction from McKinney for several years and eventually reach into adjacent counties, making daily trips and picking up the whole milk cans from the farmers every day in the week.

This McKinney plant is the only one of its kind that the company is planning to establish at this time, Mr. Cabell, the principal owner, hopes that enough milk will be available in this county to supply the needs for his Dallas plant, Cabell's Incorporated.

The local plant at McKinney will separate the cream which will be taken to Dallas, at which plant in that city will be made ice cream and butter. The Dallas plant is manufacturing butter, cottage cheese and dairy milk products, retailed through its own eight retail stores in that metropolis.

Cabell's Incorporated operates its own model dairy farm on the Northwest Highway out of Dallas, using the products from its herd of registered Guernsey cattle for its bottled milk trade in Dallas.

The McKinney plant will be manned by locally employed labor from McKinney and over the county, its organization has already been effected. As the plant's business enlarges, it is hoped to provide more labor as the business grows.

Howard S. Ware, chairman of the McKinney Chamber of Commerce Industrial Committee; President Jas. H. Merritt of that organization and Secretary M. Hammond Moore had the active support of the Junior Chamber of Commerce and County Farm Agent Jack P. McCullough in cooperating in making the survey of the potential milk production available for the McKinney market. They worked unceasingly to interest Mr. Cabell, who is regarded as one of the most successful operators of milk plants in Texas, to come to McKinney to establish this plant.

Preliminary surveys indicate that within a short time there should be approximately 3,000 gallons of milk marketed at the McKinney plant daily, which, at prevailing market prices, would mean a handsome cash sum paid out to farmers every week in milk checks.

A very enjoyable time was spent by the ladies of the Methodist Missionary society, Monday afternoon, when they were entertained by Mesdames G. W. Pool, Sr., and R. A. Maxey, at the home home of Mrs. Pool. The entertainment was in the form of a Colonial Party, Mrs. Pool welcoming the guests in the role of Martha Washington.

The room was attractively decorated in bright colored flowers to represent a rose garden, in which was enacted a very clever little playlett, "A Colonial Tea Party," directed by Miss Etta Robinson, and Mrs. R. F. Hartman, teachers in the Nevada school.

The characters were:

Betsy Ross, the hostess, Nell Kirby.

Martha, Billa Ratcliff.

Rose, Mary Moudy.

Mary, Wilma Curtis.

Washington, Paul D. Davis.

Morris, Charles LaRue.

Adams, Henry Kirby.

Hamilton, Joe Smith.

The girls were charming, in their gaily colored gowns and the boys played well the part of pioneer statesmen, in their knee pants, frock-tailed coats and lace cuffs.

During the afternoon several tests claimed the time and interest of the group. Partners for these were matched by means of the Proverbial "Hatchet" which became the souvenirs of the occasion.

Delicious refreshments were served in three courses. The first kraut juice, cocktail, followed by sandwiches, and hot chocolate, than came cherry pie with whipped cream, and coca cola.

Besides those in the play, the following were present: Miss Etta Robinson, Mesdames M. E. Evans, Burrel Evans, Lee Kirby, Walter McGain, Nick Davis, Boy Davis, Will Boyd, W. N. Vernon, John Larue, Gordon Pouncey, Paul Davis, J. Q. Davis, J. A. Taylor, A. E. Curtis, Hershell Cope, R. F. Hartman, Master Wash Pool, and the hostesses.

The birthday bag was brought in. Mesdames Vernon, G. W. Pool Sr., M. E. Evans and Will Boyd, all drew lovely gifts, as this being the month their birthday came on.

## Editorial Expression

### FARMERS ARE THE KEY.

There is no better index of the unevenness of recovery in the various industries than the great variation in the internal purchasing power of the dollar.

According to the findings of the national industrial conference board, the American dollar at the end of the year 1933 had a purchasing power above that of the 1926 dollar. But it is also pointed out that the dollar of last December, as compared with 1926, had more purchasing power for some groups of commodities than for others. It could buy on the average twice as much farm products from the farmer, but only about a fourth more of other commodities.

There is a great gap still to be closed before the golden mean of 1926 is reached. The farmer must first feel the warm rays of prosperity's sun before the chill of depression can be dispelled.—St. Paul (Minn.) Pioneer Press.

### FOR LIEUTENANT GOVERNOR.

Out of the campaign thunder, which is already beginning to roll out of Austin, comes several announcements of candidacies for the battle this spring and summer, and there is at least one piece of encouraging news. Senator Joe Moore, of Greenville, has announced his entry in the race for Lieutenant Governor. Senator Moore is honest, he is intelligent, he is experienced, and best of all, he holds the purse strings tight when spending the taxpayers' money. Would there were more like him.—Mt. Vernon, Texas, Optic-Herald.

Texas farmers have pledged nearly 6,000,000 acres to retirement in the Government's Cotton Acreage Reduction program of 1934. The quota percentage of Texas is well in line with that of other states, so announces H. H. Williamson, assistant state Extension Service director, who was in direct charge of the reduction campaign. The total acreage reduction pledged in the cotton belt of the United States showed well over 12,000,000 acres and makes the program of Secretary Wallace of the Department of Agriculture operative and warranted for 1934.

While the people are in such a mood to "repeal," wonder why they do not consider repealing the laws of murder, bank robbery, hi-jacking, stealing? Many are "arguing" that these laws are not well enforced. It's only what some people want "repealed" when they holler so loudly. Something is going to have to be done about this bank robbing business, or they are going to steal all the loose change the people have in the banks. Old time "neck swinging" parties—old-timers tell us—were quite a success in Texas' early days. Enforce all the laws, or let's get our "repeal" friends to take charge.

A Collin county man, aged one hundred and six years, went out to Wichita Falls week before last to visit a daughter, was taken ill and died. We regret that, and wish he had stayed at home, for had he done so he would probably have reached a ripe old age. It is always dangerous for a man getting along in years to change his home.—Bonham Favorite.

C. F. Denny, a Commanche county farmer, is beinning to believe that pecan raising is not just an additional side-line for the farm. He has one acre of twenty-five pecan trees which has averaged $113 per acre annually for the past six years. The yield last year was 500 pounds. Pecan trees are beautiful, profitable and their profits also come in handy.

We are going right along out of the depression. Many of us have been depressed. It got all of this world's goods, that many people had—rich and poor, high and low. Just got to start over again. We, are doing it. Let's keep going, hustling, working doing things. No one likes a quitter.

Speak to your neighbor. Treat him kindly. You may need him some day for a pall bearer. Can't tell. He could carry you so much easier if he only knew that you liked him during your life-time.

At last we are able to economize. Our dog harbors several flea circuses and the actors put on a continuous free performance.

Perhaps McKinney is blessed with more good churches and more able ministers than any small city in the Southwest.

If you haven't been able to save anything so far this year, don't give up your optimism. You'll soon be able to save a little day light.

Those European peace treaties are all right providing no one starts a war.

## PERSONALS

Bob Holmes and Dave Christie of near Frisco were McKinney visitors Thursday. Both are prominent Southwest Collin citizens.

Five volumes of "International Standard Bible Encyclopedia" have recently been loaned to the McKinney public library and will be found there for reference, so announces Miss Faye Wilcox, librarian. The books were loaned by Rev. C. N. Hedges, a Baptist minister, who moved here a few months ago from Amarillo. The books are non-sectarian and will be beneficial, especially to Sunday school teachers and leaders.

Jack Worsham and Frank Blackwell escaped serious injuries Sunday afternoon about 3 o'clock when they were in an auto collision about three miles north of Plano on the McKinney-Dallas highway. They were going south, and, while rounding a curve at that point of the road, they were struck by another car, occupied by John Cox, deputy sheriff of Dallas county, and family. Both cars were badly damaged, especially Mr. Worsham's car. Luckily, the occupants of both cars received no injuries, other than being shaken up and slightly bruised.

W. T. (Tom) Shewmake who runs a suburban store just northwest of town, is able to be out again after three weeks confinement from high blood pressure and influenza. We are glad to see our friend able to come into town again and to look after his business interests at the store. Tom has lived in the county for fifty-eight years. He and his good wife reared one child of their own and eight orphans, one being now in their home and another one whom they reared to manhood is now in the United States Navy stationed in China on his ship. The latter is Alton Shewmake.

H. Grady Chandler, 1203 South Broadway, Tyler, Texas, sends renewal cash to the Daily Courier-Gazette to June 1, 1934. Mr. Chandler is one of the most prominent lawyers of our state. He is a native of Plano, this county, where his honored old parents, Mr. and Mrs. W. H. Chandler, are still living. Grady is a former County Attorney of Collin county, who later served as First Asaistant Attorney General of Texas and then was a law professor for several years in the State university, at Austin, before locating at Tyler, where he has built up a big law practice.

## FARMERS GLAD OF MILK PLANT LOCATION HERE

W. T. (Willie) Dungan has been spending the last few days in the territory surrounding McKinney, contracting farmers and owners of milk cows with a view to securing a needed supply of whole milk to run the new McKinney Milk Products plant, a $10,000 capital new industry being opened up in McKinney that will mean much to the business interests of our city and county in the future. Collin county has more than 6,000 farms and a great number of milch cows.

Most of them are well bred grades and many of them registered animals. The owners of such cattle have been handicapped by a lack of a convenient market. The McKinney plant supplies this need.

Mr. Dungan, who is an experienced dairyman, says that he is finding a most cordial reception among the farmers and dairymen. They are welcoming the location of the milk plant here in McKinney, which will mean a ready milk market to all who wish to sell whole milk and receive their cash pay checks for same every week.

Editor J. Frank Smith of the Examiner and wife attended the H. W. Hart funeral in Dallas, Monday. Mrs. Frank W. Emerson accompanied them. The deceased formerly lived in McKinney for many years, during which time he was local agent of the H. & T. C. Railyway here.

FROM THE FILES OF THE DAILY COURIER-GAZETTE

(March 19, 1909.)

Ed Nellon, former County Commissioner, of Wylie, pays for the Democrat-Gazette for a year in advance. Thanks.

Rev. Sam Francis, pastor of the Blue Ridge Circuit, Methodist church, was a business visitor in McKinney yesterday.

L. E. Stewart and pretty little two-year-old grandson, Ruel Carrington, gave the Daily Courier Gazette and Weekly Democrat-Gazette a visit yesterday.

W. A. Morrow has returned to his home at Richardson after being treated at the Dr. J. A. Caldwell sanitarium. He returned home cured.

City Marshal Johnny McKinnty has given loafing negroes the final word to go to work or vacate McKinney streets. There is plenty of work to do if they will but do it.

Ed E. McMurray of Verona, whose smile and sunny disposition are like the "evening sunbeam" that drives the clouds away pays for the Daily Courier-Gazette to go to his son, F. H. McMurray, Commerce, Texas.

Mrs. G. A. Abbott was in McKinney yesterday with her parents, Mr. and Mrs. R. D. Townkins of Princeton. Mrs. Abbott was recently bereft of her husband who died at their home near Southmayd, Grayson county, February 27, and was buried next day in Princeton.

**Why Liquid Laxatives Do You No Harm**

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right liquid laxative will bring a perfect movement, and with no discomfort at the time, or afterward.

The wrong cathartic may often do more harm than good.

An approved liquid laxative (one which is most widely used for both adults and children) is Dr. Caldwell's Syrup Pepsin, a prescription. It is perfectly *safe*. Its laxative action is based on senna—a *natural* laxative. The bowels will not become dependent on this form of help, as they may do in the case of cathartics containing mineral drugs. Ask your druggist for Dr. Caldwell's Syrup Pepsin. Member N. R. A.

## GRAND CHAMPION COW WON BY SINGLETON FARMS

Singleton Farms at Midlothian, Ellis county, captured the Grand Champion Cow award of 1934 Southwestern Exposition and Fat Stock show at Fort Worth, this year. This fine winning animal, a Shorthorn, "Cloudberry Lady Y" was the lucky animal.

The Singleton Farms are one of the most extensive and best improved in the northern half of the state. They are owned by M. E. Singleton, who was born and reared on the place, but who is now living in St. Louis, having made an outstanding success as a business man at farming and stock raising, owning and operating railroads, insurance companies, gins and cottonseed oil mills.

He is one of the owners of the big Collin County Cotton Oil mill and [illegible] as gins at Farmersville and other points in the county. He also owns a cottonseed oil mill at Farmersville and is president of the First National Bank of Farmersville.

Our long time friend, J. T. Davis and wife, of Calera, Oklahoma, called at the Weekly Democrat-Gazette and Daily Courier-Gazette office Monday for his paper of last week. He says he doesn't want to miss reading a copy of it. Mr. and Mrs. Davis lived for many years on their good farm near Princeton, which they sold a few years ago and bought more and cheaper land in Bryan county, Oklahoma, where they have since lived. They are here visiting their son, Lee Davis, and wife, Route 3, McKinney; their daughter-in-law, Mrs. M. S. Davis and four children in McKinney and also their granddaughter, Mrs. Joe Enloe and husband, also of this city. No finer people than J. T. Davis and his dear old wife.

The Young People's B. Y. P. U. of the Celina Baptist church expect to continue a sales shop on Saturday afternoons and special days—proceeds to be applied on a $7,000 debt on their building. Three ladies of that church are conducting the plans.

W. E. West, prominent onion man of Princeton, has put out, on a contract basis, 4,500 crates of onion slips this year. This makes about 700 acres which he had set in onions this year. Mr. West is quite optimistic about the outlook of the onion crop, believing that Texas will produce 8,000 carloads of onions, about 1,500 cars moving from North Texas.

City Secretary and Assessor G. Frank Wolford is assessing city taxes for 1934. He is efficient, strictly business, always being kind and courteous. The city of McKinney never had a more efficient painstaking official than G. Frank Wolford. He tells us that the people are very nice and courteous to him.

# TEXAS

During a single century, beginning with a handful of American colonists led by Stephen F. Austin, Texas has grown to a State with nearly six million people . . . fifth in population ranking among all the States.

The Austin colonists were adventurous toilers. They worked to extend American civilization. They were pioneers, sowing the seed for a race of workers. Their inbred love for achievement laid the foundation for the Texas of today, which is truly a monument to tremendous accomplishment.

The heroism of the pioneers has colored each year of this century of Texas history. Each generation has produced its quota of big-minded Texans whose vision and courage have led the people on to pioneer in the development of new resources . . . constantly seeking new and better ways of earning, living and serving.

Texas is the leader of the Southwestern empire . . . the heart of the Southwestern market with its more than twelve million people having more than six billion dollars of annual buying power. Texas has forged into, and holds, this position by dent of the unstinting devotion of Texans.

More than twenty-one years ago the Texas Power & Light Company brought transmission line electric power to aid in the development of the natural resources of Texas. The use of transmission line electric service has increased the efficiency of the builders of Texas commerce and industry a thousand-fold. The limits of Texas opportunities have been extended. Dormant resources previously beyond the reach of man's hands have been harnessed by the use of this electric power and now serve as sources of new wealth. This company still operates with the spirit, vigor and courage of Texas pioneers, recognizing no toil as too great so long as it is exerted for the expansion of opportunities for Texas.

## Money In Onions

(Dallas News)

Onions may bring tears to some people but they are adding to the fortunes of an increasing number of Texans, L. U. Bouchard, general freight and passenger agent of the Southern Pacific Lines, declared Wednesday, pointing to reports which had just reached his desk from McKinney and other points.

In Collin county, one report said, 2,000 acres had been planted in onions last week and planting was continuing through this week. A carload of slips which arrived at McKinney this week was sold out before noon.

From Richardson to Anna, Mr. Bouchard was informed, onion planting is double that of last year, with the biggest increase near McKinney. Additional shed room likely will be needed for this year's crop, reports indicated.

Mrs. J. Frank Harrington, wife of County Judge J. Frank Harrington, was downtown Thursday for the first time since she and her husband suffered serious injuries last December on the highway just north of Austin when their automobile collided with a truck. Judge Harrington has been out and about his duties for the past few weeks although his leg is still in a cast. Their many friends will be pleased to learn that Mrs. Harrington is now able to be out and that she is on the road to recovery.

Mrs. G. W. Sullivan, 1301 North College street, and husband honored her mother, with a birthday dinner on the occasion of her eighty-ninth birthday, March 9. Besides the honoree, the daughter and son-in-law, there were also present several of the grandchildren and a few near friends to help Grandma enjoy the occasion. Mr. and Mrs. Craver settled many years ago in the Climax community. Her husband passed away a few years ago. Grandma Craver is dearly beloved by her acquaintances. She is a fine Christian old mother and grandmother.

R. J. Smith of Texarkana is renewing acquaintances in McKinney in and which town or near it he lived for forty years. He is now visiting his daughter, Mrs. J. T. Gaddy, at Princeton, Texas.

L. P. Barnes of Princeton is another late addition to the Weekly Democrat-Gazette subscription list. We welcome him.

B. J. McMillan, state pure food and drug inspector, was in McKinney Friday on his annual inspection of food and drug conditions in the various Texas cities. While here he conferred with Hugh Kistler, local food inspector, and visited local business houses.

Fayett West, a prominent farmer living on Route 1, Allen, was a welcome business caller at our office, Thursday. Mr. West and his good wife ow none of the best improved farm homes and places that we know of. They are outstanding successes as a farm couple.

## "COME HITHER" EXPRESSION--SMITH, "THE NUT" EDITOR

M. B. (Marvelous, Benevolent) Smith is the editor of the Friendly Farmersville Times. He tries to get "funny," and says that this editor "Has Got The Political Itch." Onion Smith used to work in a "nut factory," then learned the printer's game, but is still as "nutty" as one of those Grey fox squirrels, which hibernate in East Fork bottom between McKinney and Farmersville. With all of our "faults," we love him "still." He says: "You can never tell what will happen next." And, you can't. The campaign is young yet. All the horses are not on the track, some believe. Onion Smith in the last issue of the Farmersville Times says:

+ + +

HAS "COME HITHER" EXPRESSION.

"Editor Tom W. Perkins of McKinney "blew" into this office Thursday morning and had us "wooxy" before we could get our breath. As usual, Tom W. is full of pep and spizzerinctum and was feeling his oats. "Your town looks good to me," said Tom W. "and it looks like the depression is over. I see you are going to have a fine crop of those East Collin Sweets in this section. At least I hope you have enough to keep your breath flavored during the press association in June." When interogated about the persistant raport that he would be a candidate for State Senate. Tom W. indulged in an angelic smile and said: "You never can tell"— but we noticed when we shook hands with him he had the "politician's itch" and that 'come hither" expression in his eye. Tom W. says he has been trying to keep out of politics, but his friends won't let him. If he does get into the race for Senate, you can bet your bottom dollar he will be heard from in a big way during the campaign and will prove a popular candidate at the ballot box. There are few better known or more serviceable citizens in the district than Senator Perkins. With his forty years as a country editor, four years in the State Senate and ten years as Mayor of McKinney, he has long ago acquired the habit of performing a constant unselfish service to the public. He is widely known and highly regarded over the district and aside from a loyal support of his home county people, he would receive a splendid vote in Rains, Rockwall and Hunt counties."

O. O. Pinkerton, Route 2, Blue Ridge, and J. G. St. Clair, also of that community were business visitors at our office Friday on their way home from Dallas. While here Mr. Pinkerton renewed his subscription to the big newsy Weekly Democrat-Gazette for a year in advance. Many thanks.

## Asks Second Term

### G. Frank Kerby Submits Candidacy As County Commissioner

G. Frank Kerby, farmer and stockman of the Forest Grove community, authorizes the Daily Courier-Gazette and Weekly Democrat-Gazette to make his announcement for a second term as County Commissioner of District No. 4, subject to the action of the Democratic Primary, of July 28. Frank was never a candidate before until his nomination and election two years ago.

Mr. Kerby is a native of this county, having spent his entire life in the community where he still lives. His grandparents, the late Wesley Kerby and wife, settled in that community long before the Civil War. The family name has been identified with the development of this county almost ever since it was first organized in 1846. Its representatives have been among our very best people, useful and highly esteemed. Perhaps none of them have been more favorably known and appreciated than big hearted Frank Kerby, whose friendliness and hospitality know no bounds. No man could be more fond of his friends nor more anxious to serve them honorably and usefully than G. Frank Kerby.

He has now served in the office only about a year and three months, but in that brief time he has demonstrated that he is true to his oath and to every responsibility placed upon him by the voters. He is conscientious, capable and devotes his entire time to studying the duties of his office and performing them. He invites the voters to investigate his record and, if it meets with your approbation, he is very anxious to have your endorsement for a second term.

Mr. Kerby, together with the county judge and other members of the County Commissioners court, have had to face many difficulties in the administration of county affairs on account of the blighting depression. They have put into effect every possible economy and have endeavored to keep the county's business affairs on a sound financial basis and to save the taxpayers every cent possible in administering their county government.

Frank is a southerner to the manner born. He and his ancestors have loved the Southland and her traditions with a passion that never abates. He loves Collin county and all her people and while serving his own district, the people of the county in the other districts likewise have his deepest concern and best wishes. In other words, he wants to serve the entire county by rendering efficient public service that will cause him to be appreciated by his native home people when he shall have retired from public office.

Mr. Kerby submits his candidacy for a second term on the record that he has made in the office and his fidelity to public duty.

He craves your friendship and your support and through these columns he s respectfully inviting your vote and influence.

He sincerely thanks you for the honor that you conferred upon him in 1932, and he believes that he merits your continued friendship and support in this, his second race. No man will appreciate any aid that you can extend him more than G. Frank Kerby.

He went down the highway by Woodlawn with his team. When he got to the East Fork of the Trinity, it was overflowed. The mules had to be made to go onto the bridge. They were tied together and as they left the bridge, they broke away from Bard and got out into the main stream of the water. Their bridles became entangled on a tree limb, and they could not break away. Bud saw the situation and to save the team pulled off his clothes and swam out into the cold, muddy water and cut away their reins. We think the young fellow a very brave young man and deserving honorable mention.

# M'KINNEY HIGH LIONS CAPTURE TRACK MEET

The McKinney High Lions, coached by Prof. J. T. (Doc) Rollins, met sterner opposition than for some time past in the County Class A track and field meet held at Newsome Field in this city Friday afternoon, but managed to pile up a large number of points in several events, easily capturing the county title for the fourth consecutive year. The Lions and the Farmersville High Farmers staged a dual meet, McKinney winning, 86-59. However, the Flying Farmers nosed out the local lads in several of their strongest events and were well in the running until the last two or three events.

No new records were set, due to a high south wind, which played havoc with runners, and a shortage of really capable weight and field event men.

McBee led by a few steps until the last two yards when Hale breasted the tape a scant few inches ahead in the fast time of 57 seconds flat. McBee's time was also 57 flat.
